

## 24/Locksmith - Video Transcript

Hi, my name's Sean Falkinder, and welcome to Spec & Fix Locking Solutions.

At Spec & Fix, we specialize in all aspects of locksmithing from both a field and bench perspective. We pride ourselves on giving you the very best of service.

Whilst the easy option can often be to replace a faulty unit, that can sometimes be the costly option for the consumer.

Given our vast knowledge of all things lot related, and how products work underneath the covers, we'll do our utmost to refurbish units where possible. As long as we're certain it's safe, secure, and it saves you money - that's good enough for us.

When Supply and installing lots to a domestic property, we make it our obligation to provide you with the latest industry standards and give you a recommendation on which products to fit. For example, did you know that if your doors are not fitted with locks to either standards BS3621 or TS007, your insurance will almost certainly be invalidated if you're unfortunate enough to suffer a burglary.

That's a scary Prospect for most of us, however in our experience most consumers are unaware whether their lock is compliant until it's too late. At Spec & Fix, we provide a free of charge, lock identification service, to confirm compliancy. Should they be non-compliant, we will happily follow up with a no obligation quotation to upgrade.

Using Cutting Edge technology, we own numerous machines to cover most of the keys seen within the UK, offering a one-stop shop solution.

Our Engineers are skilfully trained to methodically gain entry for any locking issues that are preventing you from Gaining access to your property, this means that not only will we solve the issue, we'll do so with minimal mess, damage and costs - so there really is no need to panic with our 24/7 call out service, always on hand.
