

Specification and Scheduling - Video Transcript

Hi, my name's Sean Falkinder, and welcome to Spec & Fix Locking Solutions.

At Spec and Fix we offer a fully-fledged design and supply, specification and scheduling service.

Our schedulers are diploma holders for the Guild of architectural ironmongery. This globally recognized qualification represents the highest standards in education, technical excellence, legislation awareness and professionalism for the scheduling and specification of architectural ironmongery.

To gain the diploma, our staff have enjoyed a comprehensive three-year course with end-of-year examinations, which test every aspect of specification of door-related hardware.

As part of our ever-evolving industry, our team are also registered architectural ironmongers, which means as individuals they need to annually complete CPD's and ongoing revisions into the latest standard changes. This is a true testament of our commitment to offering a best-in-class service to our clients.

Our experience enables us to major in all verticals where particular best practices are required. Some key verticals to mention that we specialise in are: healthcare, education, accommodation, hospitality, retail, leisure and even residential to name a few.

So, whether you're an architect, building owner or contractor, you'll be safe in the knowledge that by entrusting our skilled team with handling your project, you'll be receiving the most up-to-date, qualified, expert advice.

Thank you for taking the time to watch this short video, hope you found something of use. As always if you'd like to get in touch, my name is Sean Falkinder from Spec & Fix Locking Solutions. Reminding you always, that if it's on a door we've got you covered.
